

## The 'Wow' Factor

HitTrax™ brings an undeniable entertainment factor to your batting cage, giving the feel of the latest game console. Players can now watch their hit soar through the outfield and view statistics that have never before been measured. The real-time aspect will further engage the player and translate into more visits to your facility.

## Games & Tournaments

The Gaming Module brings the excitement of the outdoor game right into your facility. The program will call balls & strikes, advance runners and turn rally-killing double plays. Organize individual games, tournaments, home run derbys and hitting leagues and bring in additional revenue that would otherwise not be available.

HitTrax Home Run Derby

## Virtual Dugout

The statistics collected with HitTrax are securely stored in the cloud and are available to all players, coaches and facility administrators via the Virtual Dugout website.

- Review and create in-depth reports that chart a player's progress over time
- Identify strengths and weaknesses before stepping on the field.
- See where players rank locally and across the nation.
- Easily organize games and tournaments and much more.
